Top Issues

All

FCP

LCP

TBT

CLS

These audits are identified as the top issues impacting your performance.

IMPACT

AUDIT

High	Avoid enormous network payloads	Total size was 11.4MB	<p>Focus on these audits first</p> <p>These audits likely have the largest impact on your page performance.</p> <p>Structure audits do not directly affect your Performance Score, but improving the audits seen here can help as a starting point for overall performance gains.</p> <p>See all Structure audits</p>
Med-High	Avoid an excessive DOM size	2,582 elements	
Med	Avoid long main-thread tasks	20 long tasks found	
Med	Use explicit width and height on image elements	25 images found	
Med	Serve static assets with an efficient cache policy	Potential savings of 8.37MB

Performance Metrics

The following metrics are generated using Lighthouse Performance data.

Metric details ☐ OFF

First Contentful Paint ?	Good - Nothing to do here 730ms	Time to Interactive ?	Much longer than recommended 6.6s
Speed Index ?	Much longer than recommended 5.6s	Total Blocking Time ?	Much longer than recommended 757ms
Largest Contentful Paint ?	Much longer than recommended 3.2s	Cumulative Layout Shift ?	Good - Nothing to do here 0.05

Browser Timings

These timings are milestones reported by the browser.

Redirect Duration ?	0ms	Connection Duration ?	36ms	Backend Duration ?	17ms
Time to First Byte (TTFB) ?	53ms	First Paint ?	730ms	DOM Interactive Time ?	792ms
DOM Content Loaded Time ?	918ms	Onload Time ?	3.0s	Fully Loaded Time ?	6.6s

This page does not yet have any historical data

Historical graphs require more than one test to be generated.

Once you re-test this page, the history graphs will be displayed and will give you access to the older, archived reports.

Report data generated on Basic plans will be deleted after 2 weeks.

Re-Test

You can also monitor this page to better track and visualize page performance over time.

- Schedule a test to run daily, weekly or monthly to ensure optimal performance.
- Visualize performance with graphs of Page metrics (TTFB, FCP, CLS, etc.), Page size & Request counts and Page scores.
- Annotate areas of interest on your graph and give your data context.

IMPACT		AUDIT		Show Audits Relevant to							
				All	FCP	LCP	TBT	CLS			
High	Avoid enormous network payloads		LCP	Total size was 11.4MB					▼		
Med-High	Avoid an excessive DOM size		TBT	2,582 elements					▼		
Med	Avoid long main-thread tasks		TBT	20 long tasks found					▼		
Med	Use explicit width and height on image elements		CLS	25 images found					▼		
Med	Serve static assets with an efficient cache policy			Potential savings of 8.37MB					▼		
Med-Low	Use a Content Delivery Network (CDN)			35 resources found					▼		
Low	Reduce JavaScript execution time		TBT	1.4s spent executing JavaScript					▼		
Low	Avoid chaining critical requests		FCP LCP	11 chains found					▼		
Low	Preconnect to required origins		FCP LCP	Potential savings of 82ms					▼		
Low	Enable text compression		FCP LCP	Potential savings of 38.0KB					▼		
Low	Properly size images			Potential savings of 1.76MB					▼		
Low	Reduce unused CSS		FCP LCP	Potential savings of 88.5KB					▼		
Low	Serve images in next-gen formats			Potential savings of 277KB					▼		
Low	Defer offscreen images			Potential savings of 1.52MB					▼		
Low	Avoid large layout shifts		CLS	5 elements found					▼		
Low	Avoid non-composited animations		CLS	4 animated elements found					▼		
Low	Reduce unused JavaScript		LCP	Potential savings of 337KB					▼		
N/A	Largest Contentful Paint element		LCP	3,210 ms					▼		
N/A	Eliminate render-blocking resources		FCP LCP	Potential savings of 17ms					▼		
N/A	Reduce initial server response time		FCP LCP	Root document took 16ms					▼		
N/A	Avoid serving legacy JavaScript to modern browsers		TBT	Potential savings of 213B					▼		
N/A	Minimize main-thread work		TBT	Main-thread busy for 3.8s					▼		
N/A	User Timing marks and measures			1 user timing					▼		
N/A	Reduce the impact of third-party code		TBT	Third-party code blocked the main thread for 8ms					▼
